Dr. _____

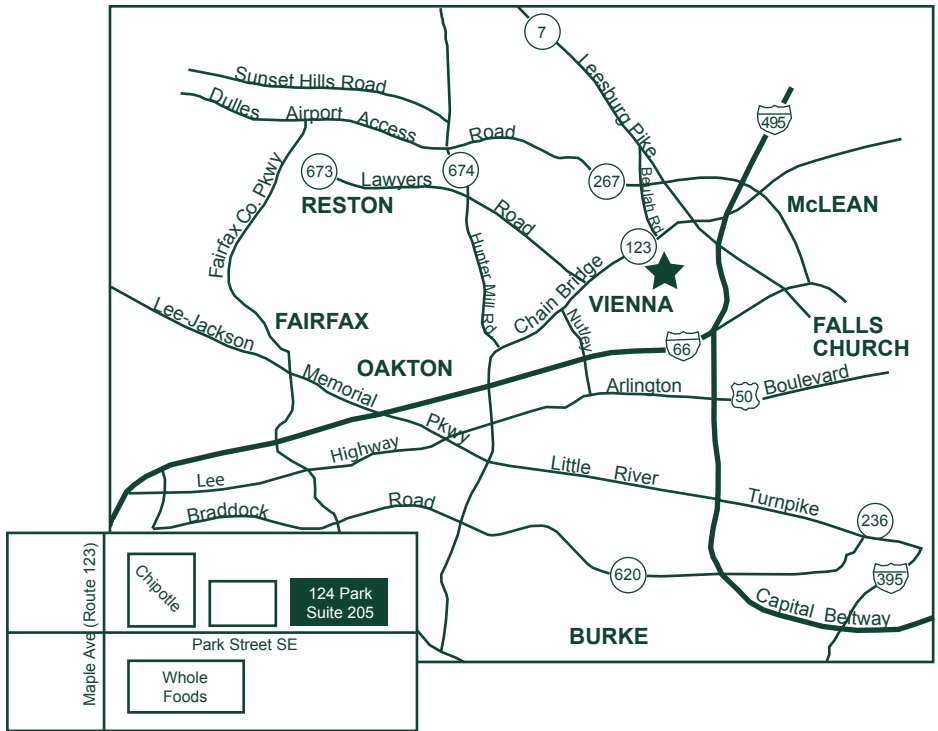

Thank you for selecting our office for your endodontic care. We look forward to your visit. Please bring your x-ray(s) if provided by your dentist, and we ask that you arrive 15 minutes before your appointment time to complete the required forms. We participate with most major insurances. Please bring your insurance card(s) so that we may assist you with your benefits and claim submission.

Welcome to our Vienna practice, where we embrace compassionate, patient-centered care and deliver exceptional treatment in a calm, relaxed and stress free setting. Working collaboratively with your dentist, we provide the latest treatment and diagnostics utilizing state-of-the-art technologies, including digital radiography.

For over 25 years, Dr. Dellork has dedicated his practice exclusively to endodontics, a recognized specialty commonly known as root canal therapy. Endodontists are experts in identifying the cause of difficult to diagnose oral and facial pain.

A graduate of Georgetown University School of Dentistry, Dr. Dellork completed a hospital residency at Upstate Medical Center, Syracuse and a two-year postdoctoral Endodontic program at the University of Maryland in Baltimore. This advanced training coupled with his vast clinical experience facilitates swift, precise diagnosis and treatment. With root canal therapy, you have an excellent chance of retaining your natural teeth and preserving your healthy smile.
